

EXPERIMENT 3: Create a prototype with familiar and unfamiliar navigation elements. Evaluate ease of use with different user groups using proto.io

NAME: VASANTH B

REG NO: 240701820

AIM:

The aim of this experiment is to develop a Digital Library App prototype incorporating both familiar and novel navigation elements and to assess usability among diverse user groups using Proto.io.

PROCEDURE:

Step 1: Sign Up and Log In

1. Go to <https://proto.io>
2. Sign up for a new account or log in if you already have one.

Step 2: Create a New Project

1. Click on "Create New Project."
2. Give the project a name (e.g., "Digital Library App").
3. Select the device type (Mobile – iPhone X).

4. Click “Create” to start the project.

Step 3: Design the Login Screen

1. Add a New Screen:

- Click on the “+” button in the left panel.
- Choose “Blank” and name it “Login”.

2. Add Elements to the Login Screen:

- Drag a Rectangle to create a header section.
- Add Text widget and type the app name “LibraByte”.
- Drag Text Input widgets for:
 - Email/Username
 - Password
- Drag a Button widget and rename it “Log In”.
- Add an Image widget to insert a book illustration.

3. Add Interaction:

- Select the “Log In” button.
- Click on the Interactions tab (⚙ icon).

- Click “+ Add Interaction.”
- Set Trigger as “Tap”.
- Set Action as “Navigate to Screen”.
- Create a new screen named “Home”.

Step 4: Design the Home Screen

1. Add Elements:

- Change background color to dark blue.
- Add profile image using Oval shape.
- Add greeting text (e.g., “Hello User”).
- Add Search Bar using Rectangle with rounded corners.
- Add book cover images in horizontal layout.
- Add genre icons (Fiction, History, etc.).
- Add Bottom Navigation Bar (Home, Borrowed, Profile).

2. Add Familiar Navigation:

- Bottom Navigation Bar.
- Visible Buttons.
- Search Bar.

3. Add Unfamiliar Navigation:

- Add Swipe gesture to open hidden menu.
- Add Long Press interaction on book image to show popup.

Step 5: Link Screens

1. Select a book image on Home screen.

2. Add interaction:

- Trigger: Tap
- Action: Navigate to new screen
- Name the screen "Book Details".

Step 6: Design Book Details Screen

1. Add:

- Back Button
- Book Cover Image
- Book Title
- Author Name
- Description
- "Borrow Now" button

2. Add Interaction:

- Back Button → Navigate to Home.
- Long Press on book → Show popup message.

Step 7: Preview the Prototype

1. Click on “Preview” button at top-right corner.

2. Test:

- Login navigation
- Home screen navigation
- Swipe gesture
- Long press interaction

Step 8: Conduct Usability Testing

1. Define User Groups:

- Group A – 18–22 years (High tech knowledge)
- Group B – 30–40 years (Moderate tech knowledge)
- Group C – 45+ years (Low tech knowledge)

2. Assign Tasks:

- Log in to the app.

- Search for a book.
- Open book details.
- Use swipe gesture.
- Navigate back to Home.

3. Collect Feedback:

- Measure task completion time.
- Record errors made.
- Collect satisfaction rating (1–5).

Step 9: Analyze and Evaluate

1. Compare how different user groups interacted with familiar and unfamiliar navigation elements.
2. Identify difficulties faced by users.
3. Summarize findings and suggest improvements.

Output:

login screen: State 1

About

Thriller | Suspense | Bestseller

She was fifteen, her mother's golden girl. She had her whole life ahead of her. And then, in the blink of an eye, Ellie was gone.
